SAFE STEP
WALK-IN TUB CO.

New MicroSoothe Air Jet

Safe Step Walk-In Tub: So much more than just a tub

Safe Step Walk-In Tubs give you the best of all worlds. Safety features like a low step-in, wider door, grab bars and anti-slip floors and seats allow you to get in and out of the tub easily, eliminating many of the fears and hazards of taking a bath.

But there's more.

Presenting our new heated seat and back, new foot massaging jets and our new and improved **MicroSoothe** Jet, the most advanced air system in the industry. **MicroSoothe** oxygenates, softens, and exfoliates skin leaving it ultra-soft and silky.

Safe Step Tubs not only lets you enjoy a relaxing bath again, but the therapeutic benefits of the hydrotherapy system may increase mobility, relieve pain, boost energy, and improve sleep. And because you can take a bath safely and with greater independence, a Safe Step Tub can help you stay in the home you love longer.

In short, a Safe Step Walk-In Tub will change your life

Safe Step Tubs have received the Ease-of-Use Commendation from the Arthritis Foundation, which recognizes products proven to make life easier for people who have arthritis and other physical limitations. Our tubs have been rigorously tested and approved by experts as well as people with moderate-to-severe arthritis, confirming that a Safe Step Tub is easy to use for everyone.

Safety features like a low step-in and wider door to prevent slips and falls.

You'll get in a Safe Step Tub easily and safely.

High, comfortable seating position with easy-to-reach controls, including a hand-held shower.

Heated seat and back providing warm comfort from start to finish.

Soak, relax and feel completely rejuvenated when you get out

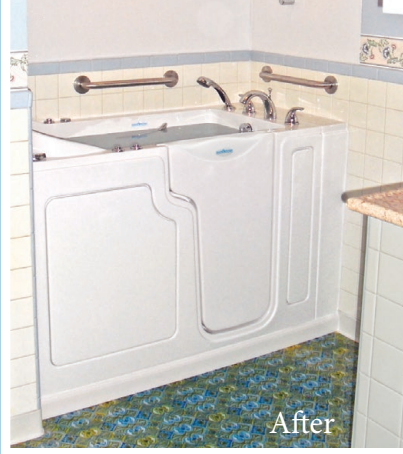

Safe Step's therapeutic features including hydrotherapy, chromotherapy, and aromatherapy help ease life's aches and pains for instant relief and long-term benefits.

The anti-slip floor and built-in grab bars help you exit the tub safely, feeling like a new person.

Before

After

Our tubs are designed to easily fit your existing tub space without full remodeling or further installation expense.

Professional installation

Our carefully screened and certified installers are fully insured, and installation is 100% guaranteed. Most installations can be completed in as little as one day. And because of our quality products and attention to detail, a Safe Step Tub will even improve the look of your bathroom.

Call for a free consultation

We invite you to schedule a free, no obligation, in-home consultation with one of our safety consultants, who will answer your questions and provide you with a detailed estimate based on the size and specifications of your bathroom. Installation is included in the price.

You'll find that Safe Step Tubs are an excellent value. Our products are less expensive than comparable tubs and far less expensive than the healthcare costs of a single fall in the bathroom.
